### Pacific Green is Committed to Quality and Client Satisfaction

At Pacific Green Landscape, client satisfaction is our top priority. At each job site we perform regular formal job inspections. We use a formalized point system to assess categories such as turf quality, irrigation maintenance, bed maintenance, chemical application and overall property cleanliness. After the inspection report is scored the production manager assesses needs and works with his or her crew to ensure any low scoring areas are improved.

At each job site we also suggest enhancements that will improve and bring longevity to an area while maintaining respect for the property's budget.

### Staff Spotlight: Cindy Such, Accounting Supervisor

PGL was lucky enough to hire Cindy almost 19 years ago as a part time file clerk. Her amazing talent and skill for organizing and finding solutions to tough problems led her to her position now as PGL's Accounting Supervisor. Her positive, happy disposition creates an inviting work environment for all who have the pleasure of working with her. Her contagious laugh and beautiful singing voice never grows tired as she finds a way of making everyone who comes in contact with her feel special. When Cindy is not dreaming about numbers, she can be found enjoying all of San Diego's outdoor activities with her close family, playing the piano, or traveling the world without hitting the same city twice. Her next big adventure awaits onboard a Mediterranean cruise with her husband. Our PGL family would not be the same without the leadership and beauty that Cindy exhibits both inside and out!

### Plant Highlight: Bulbine 'Tiny Tangerine'

This month's plant of the month is the Bulbine 'Tiny Tangerine'. It blooms almost

constantly and is great for border planters because it is not too big or too small and it looks great in mass!

## Happenings at Pacific Green Landscape

Meeting of the Minds, discussing logistics and efficiencies. PGL is always a leader in proactivity and reliability!!
